

JTS GM-5218 INSTALLED AT OLDHAM MEMORIAL METHODIST CHURCH, PUNE

The Oldham Memorial Methodist Church founded in the early 1900's, is one of the oldest religious structures of Pune. The church has reinvigorated its services with newly acquired JTS GM-5218 gooseneck microphone. The church authorities purchased the JTS GM-5218 through Oceanic Sound the official dealers for JTS, P.Audio, Dynatech and Mackie in the region.

Reggie of Oceanic Audio said, "The priests and preachers of Oldham Memorial Methodist Church were seeking an efficient and aesthetically pleasing pulpit microphone, as they desired to improve the quality of speech delivery for their

The Oldham Memorial Church, Pune

regular services. After a brief look at the options available, they opted to go for the JTS GM-5218, owing to its great quality audio pick-up and delivery, and also for

the fact that it was the most price-efficient product in its range, delivering a feature set that no other model in its class did. And from what we have heard, they're absolutely thrilled with the purchase. Their audio experience at their regular services has improved tremendously.

And according to the ministers, the participation from the crowd has gotten even more vibrant. Now, that's the kind of feedback we love listening to."

STUDIOMASTER PROFESSIONAL ARC SERIES ADDS ARC 60

The Studiomaster Professional's ARC series installation speakers have added ARC 60 to its series. This model from the ARC series is a wall mounted 60W installation speaker. The design of the speaker is compact, water-resistant and completely versatile. The ARC 60 incorporates a premium 6.5" speaker with a 1" tweeter to deliver clear sound reproduction. The speaker is housed in high quality ABS enclosure to protect it from external elements such as heat, dust and moisture.

With a sensitivity of 91 ±3dB (1W, 1M) and frequency response 80Hz-20 kHz, the ARC 60 boasts of great sensitivity, dispersion

and wide throw. This feature helps especially in challenging installs where the speaker plays a crucial role in addressing the public at social events. Like most speakers in the ARC series, this speaker too consists of a tap selectivity switch for different output levels such as 60W/30W/15W/7.5W and 8Ω.

Apart from the technical prowess, the ARC 60 is visually pleasing. It has been ergonomically designed to seamlessly integrate with the most demanding architectural aesthetics, structural and performance requirements. The ARC 60 is supplied with standard brackets which makes mounting seamless. This compact

and high performance install speaker is ideal for sound reinforcements in places of worship, malls, restaurants, educational institutions or any application that requires beauty and performance.

NX AUDIO'S NEW 4 CHANNEL IT SERIES

The New 4 Channel IT series with extremely efficient Class ITM design is a premium heavy-duty toroidal transformer model delivering tremendous output from a 3U Chassis. With High End audio-

specific Components, the IT series of power amplifiers can deliver an enormous amount of power with an unmatched sonic quality specially for subs even on continuous operation in the most critic working conditions.

Class ITM is the latest technology on high power audio amplification. The output signal amplified through a Class ITM power module accurately tracks the input signal waveform, achieving a much greater efficiency and sonic quality than on other standard

amplifier classes. HS-CMRR Balanced Inputs: The balanced signal inputs on the IT amplifiers implement a High Sensitivity CMRR (Common Mode Rejection Ratio) design in order to reject even the slightest added distortion on the signal, thus assuring the best possible audio signal at the input.

The IT series has Ultra low-load output capacity and a Channel independent power supply ,plus a Channel independent protection warning indicator on the front panel. IT series comes in 2 versions , the IT-11000 delivering 10800w RMS @4 ohms (2700Wx4 Ch) and the IT-8000 7600w RMS @4 ohms (1900Wx4 Ch) Overall the IT series offers brilliant Value for money and power in a relatively compact enclosure.
